INTERESTS

Software Development using the latest edge of the technologies like Ruby, NodeJS, Elixir and expanding my skills in DevOps like Chef, Ansible, Vagrant, Docker.

WORK EXPERIENCE

GameHouse

Software Developer, 2012 - current

- Team and Tech Lead of Ruby and JavaScript developers.
- Developing the application using Ruby on Rails, NodeJS, MongoDB, Redis, AngularJS.
- Working on the deployments tasks. Learning Ansible and Docker for building container based hosts.
- Developing the advertisement platform for the mobile devices.
- Brainstorm and prototype the new approach for some parts of the application.
- Writing specs and cucumber scenarios for integration tests for our API endpoints.

Yardstick

Software Developer, 2011 - 2014

- Working on the Learning Management System
- Developing using Ruby on Rails, PostgreSQL, MongoDB, Redis, ElasticSearch, AngularJS, Unit Tests, RSpec.
- Developing front end for the learners and teachers using AngularJS.
- Writing RSpec, Unit Tests(red - green - refactor)

TheHamon

Co-founder, Software Developer, 2011 - 2012

- Team Lead of Ruby and JavaScript developers and QA.
- Working on the Risk Management Application
- Developing front end and server side applications using Ruby on Rails, MySQL, Redis, BackboneJS, RSpec, Cucumber
- Writing Cucumber scenarios for getting approve from the client before to start the development process.
- Pairing with the team mates using Pomodoro Technique

Monterosa

Software Developer, May 2011 - November 2011

- Developing the backend for the realtime tv show games.

- Prototyping using Ruby on Rails, JavaScript, MySQL, Memcached.

Belitsoft

Software Developer, 2009 - 2011

- Developing the SharePoint 2007/2010 and .NET standalone applications.
- Working with JavaScript and C# for customizing SharePoint components.

Ittransition

Ruby / SharePoint Developer, 2007 - 2009

- As a Ruby developer I was working on the Facebook applications and small projects similar togroupon.com. Using Ruby on Rails, MySQL.
- As a SharePoint developer we were working in the big team on the complex document oriented system based on Microsoft SharePoint 2007.

EDUCATION

Belarussian State of Informatics and Radioelectronics

B.S. in Computer Science, May 2010

SKILLS

Ruby (Sinatra, Grape, Ruby on Rails 2-4), NodeJS, Elixir, AngularJS, MongoDB, PostgreSQL

RSpec, Cucumber and other unit tests libraries

Vim / Tmux
